OBJECTIVE

Motivated computer science student seeking an internship to apply academic knowledge, strengthen technical skills, and gain hands-on industry experience while contributing to real-world projects.

EDUCATION

Lebanese University — BS Computer Science **2024 – Present**

Certifications

- AI Training Hackathon (Agentic AI) — LAU Academy of Continuing Education x Kanz — *AI Showcase Featured Project* **July 2026**
- Networking Basics — Networking Academy **June 2026**
- Introduction to Modern AI — Lusail University **March 2026**
- Data Analytics Essentials — Networking Academy **March 2026**
- Introduction to Cybersecurity — Lusail University **March 2026**
- BioPython Workshop – Certificate of Participation — IEEE **March 2025**

Online Courses & Workshops

- AI: Google Workshop – DevFest **2025**
- Intermediate Python Programming — Udemy **2024**
- Web Development — Udemy **2022**

PROJECTS

- **Ardana — Agentic AI for Agriculture** **2026**
Built an agentic AI “farm manager” at the LAU x Kanz AI Training Hackathon: Gemini-API-driven care plans, computer-vision plant/disease diagnosis, and weather-aware irrigation alerts, in five languages. Selected as the AI Showcase Featured Project.
- **Movie's Database** **2026**
Architected a relational database system for movie operations, optimizing complex queries across production, distribution, and multi-platform data.
- **SkyLux Airline — Web Development** **2025**
Built a responsive, cross-browser airline website from scratch using HTML, CSS, and JavaScript.
- **University Management System — Python** **2025**
Engineered a desktop university registration system in Python with an intuitive GUI for enrollment and course management.

WORK EXPERIENCE

- **Freelance IT Support & Installation** — System Troubleshooting & CCTV Installation **Ongoing**
- **Life Guard** — Rio Lento, Naher el Kalb **6/2024 – 9/2024**
- **Waiter – Cashier** — Animal City, Naher el Kalb **2/2021 – 9/2021**

SKILLS

Programming Languages

C • C++ • SQL • UNIX • MATLAB • Python • Prolog •
Assembly • HTML/CSS/JS • Java (OOP)

Soft Skills

Leadership • Adaptability • Critical Thinking • Time
Management • Communication & Teamwork • Debugging &
Problem-Solving

Agentic AI & LLM Tools

Agentic AI • Gemini API • Prompt Engineering • Computer Vision • Multi-Agent Systems • REST API Integration
